

The Ultimate Business-Grade WiFi for Small Business and Home

Orbi Pro WiFi 6 Tri-band Mesh Add-on Satellite (SX580)

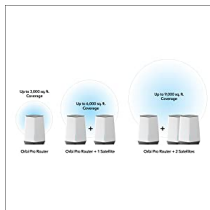

orbi ^{PRO} WiFi 6 Unparalleled Coverage. Unprecedented Power.

Up to **12** simultaneous WiFi streams

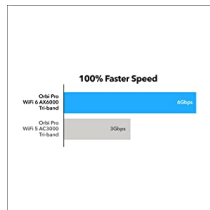

Up to **4x** users

Up to **100%** faster speeds

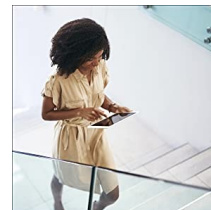

Flexibility to control access and optimize device performance across 4 unique networks

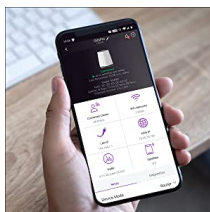

Expands With Growing Needs
Each Orbi Pro WiFi6 Tri-band Add-on Satellite expands WiFi coverage by 3,000 sq. ft.

Blazing Fast 6Gbps WiFi
Speeds up to 6Gbps are 2x faster than WiFi5 technology, eliminating lags in video streaming or conferencing.

Seamless Roaming Everywhere
Stay connected as you move throughout your home or office using an optional single network name.

Easy to Set Up and Manage Advanced Options
With the Insight app, you can set up your WiFi network(s) in minutes, customize settings, test/monitor WiFi speed and control your WiFi anytime, anywhere.

Each Satellite Provides 5 Extra Ethernet Ports for Fast Connections to Wired Devices
Gigabit ports on the satellite give wired connections to your computer and other high-speed network devices.

Wall mount or Table Flexibility
Table or wall, Orbi Pro WiFi 6 satellite keeps a strong signal wherever you need it, without any cables. Mounting brackets included.
